

TRACKING BOX FOR PTZ CAMERAS

The tracking box is a new and cost-effective tracking solution for high speed PTZ cameras. It enables object tracking functions on normal speed domes.

Features

- ❖ Highly compatible with normal high speed PTZ cameras, with no affect on the existing functions of the cameras;
- ❖ Auto search and track on moving object, with adjustable precision and tracking state;
- ❖ Auto return to home position/preset and keep tracking after a programmable interval when object is out of adjustable area;
- ❖ Independent OSD menu to display and program camera;
- ❖ Cost effective solution without extra cost on the cameras;
- ❖ Up to 4 alarm inputs;
- ❖ Compact design and easy operation;
- ❖ Auto actions (such as tracking, preset, cruise, pattern etc.) on power up, alarm, park;
- ❖ Hi-precision motor providing stable and precise performance;
- ❖ P/T speed adjustable as per zoom times;
- ❖ Multi-protocols supported (such as Pelco D/P) with adjustable baud rate;
